

# Love your Fishing?

You can make a difference  
caring for your fishing grounds  
with Creek to Coral

"Increasing community engagement  
in Townsville coastal catchments  
for Biodiversity"

Townsville City Council through the Creek to Coral initiative has a great project that supports community to be involved in natural resource management activities.  
*(funded through the Australian Government's Caring for our Country program)*

It's not just a catchy name. The project will provide funding to support community protect and manage our special natural areas and critical habitats to maintain biodiversity and ecosystem functions across our coastal landscapes.
